Waterworks By-Law Requires New Vote

When the town council convened last Thursday evening all of the members were present and after the passing of the previous minutes the secretary informed that the waterworks and sewerage by-law was invalid, owing to a technicality and that a new vote would have to be prepared and the ratepayers asked to vote on it again. From the discussion that followed it was known that the advocates of Messrs. Anselmus Jarvis & Co. agreed to purchase the waterworks, raise the rate on that item from the present \$1.00 to \$2.00 for the town, but the council decided to vote on it again. The council decided to vote on it again. The council decided to vote on it again.

When the subject was first being discussed last night the council decided to vote on it again. The council decided to vote on it again. The council decided to vote on it again.

The Coal Situation

While Gleichien is fortunate in having plenty of good coal at her door and the mines operated by the local coal companies are producing a sufficient quantity of coal to meet the requirements of the town, it is not so with the surrounding area.

Another feature of the case is that the local coal companies are producing a sufficient quantity of coal to meet the requirements of the town, it is not so with the surrounding area.

It was thought long by the council that the coal companies are producing a sufficient quantity of coal to meet the requirements of the town, it is not so with the surrounding area.

It may be well pointed out that if the by-law were passed on this point for this year there would have been no such trouble, as the assessment will be levied on the basis of the coal situation of that year.

By-law No. 17, providing for the waterworks and sewerage system, was read a first and second time and by a vote of 10 to 5, the council decided to pass it.

The council decided to pass it. The council decided to pass it. The council decided to pass it.

The council decided to pass it. The council decided to pass it. The council decided to pass it.

The council decided to pass it. The council decided to pass it. The council decided to pass it.

The Box Social

The concert and box social held on Friday evening at the home of Mrs. J. H. McCallum was a great success.

The concert and box social held on Friday evening at the home of Mrs. J. H. McCallum was a great success.

Queenstown Farmers' Union

The Queenstown Farmers' Union held a special meeting in the Library school house on Saturday last. There was considerable business transacted, the most important items being the decisions to make every effort to get a new school house for the district.

Berrywater Farmers' Union

The Berrywater Farmers' Union held a special meeting in the school house on Saturday last. There was considerable business transacted, the most important items being the decisions to make every effort to get a new school house for the district.

Agriculture Prosperity's Foundation

"Agriculture is the foundation of prosperity, and it is upon such a foundation that the future of our country is built. Compared with agriculture, mercantile industries are young and are but a passing fancy."

Farm for Sale

Best 12 Section Barn in Queenstown. North Hill Sec. 9, T-19 R-20. 240 Acres—217 per acre, Cash.

The Right Flour at Last!

At the GLEICHEN FLOUR and FEED STORE. F. C. VIGAR, Proprietor.

Supreme Flour

From the Mills at Redcliff, Alberta. SELLING AT Small Profits—Quick Returns at the following Cash Price: \$3.40 per 100lb.

Very interesting discussions took place on the best method of placing the institution on a sound permanent basis, and to that end it was to incorporate the body by act of parliament.

The meeting adjourned until Friday morning at 8 p.m. when all will be in sympathy with this patriotic movement will endeavor to secure the success of the cause.

A LEAGUE OF PEACE

THE IDEA IS CONSIDERED TO BE VISIONARY IN ENGLAND

British Public Warmly Commends Sir Edward Grey's Project—Believe That Political Friendship Between the Great English-Speaking Nations Would be the Most Glorious Consummation the World has Seen

London, Eng.—Mr. Balfour's recent arbitration speech which was quite unexpected has given a new impetus to the arbitration movement, and in the opinion of the Liberal papers, brings the question of an Anglo-American treaty within the region of practical politics.

The Daily Telegraph in an enthusiastic editorial says that the League of Peace thus established would necessarily include the countless populations of the whole British empire. Political friendship between these great English-speaking nations would be the most glorious consummation of free nation the world has ever seen.

In common with the other Unionist papers, however, the Telegraph attaches equal importance to Mr. Balfour's argument in the same speech that the idea of universal arbitration is visionary, and that any Anglo-American treaty would in no way change Great Britain's relations with Europe, and would not justify any reduction of the British naval strength. The notion of the United States and Great Britain doing the police duty of the world would be obnoxious, according to the Unionist organs.

The Telegraph says that the friendship between Great Britain and the United States must be no pact against other countries. The Standard similarly asks whether if the treaty was concluded, in the event of the United States becoming involved in hostilities with Japan, it could be supposed for a moment that Great Britain would go to their aid.

Leading divines of all denominations are warmly commending Sir Edward Grey's project, and are already discussing the reorganization of a huge popular demonstration in its support, to be held either in Albert Hall or Hyde Park.

GREAT WATERWAYS

Counsel for the Company Asks to Be Added as Defendant in Suit Against Royal Bank

Edmonton.—The Alberta and Great Waterways company and the Canadian West Construction company, acting through their counsel, Frank Ford, K.C., are asking the supreme court of Alberta that they be added as defendants in the action of the province against the Royal Bank to recover the proceeds of the sale of the Great Waterways bonds.

The request is contained in a motion launched in the supreme court asking leave to intervene in the province's appeal against the order of Mr. Justice Beck, given several weeks ago, that the two named companies be added as defendants in the action. The order was opposed by W. L. Walsh, K.C., acting for the province on the ground that the defendant had asked that the other parties be added, and the parties themselves had made no such request.

SERGEANT-AT-ARMS PROMOTED

Herr Brandt, of Alberta Legislature, Appointed Chief Forest Ranger at Cooking Lake.

Edmonton.—From the position of sergeant-at-arms in the Alberta legislature to chief forest ranger in charge of the Cooking Lake forest reserve on the G. T. P. is the big jump of Herr C. F. Brandt, of Edmonton, for three years past chief of the legislature. The news of Herr Brandt's appointment to his new position was brought to the city by A. Knechtel, inspector-general of the forestry branch of the department of the interior. Knechtel has come west for the purpose of completing arrangements for the establishment of forestry work in the Cooking Lake reserve.

Advocates National Army Service

London.—At a dinner of the Canada Club, Major General Sir Ronald Lane, answering to the toast of "The Army," spoke in favor of national service, saying that invasion was not only possible but probable.

The chairman of the function, Hamar Greenwood, proposed the "minority of Canada," coupled with the name of Earl Grey, governor-general. He remarked that Canada had received 84 per cent. of her immigration from Northern Europe, and the immigrants were mostly on the land. Speaking of the reciprocity question, he said that because Canada was able to make treaties, it should be presumed that the country would be in the interest of the British Empire. Many distinguished guests were present.

Want Demonstration Farms

Edmonton.—Delegations from Le due and Bruce were in the city recently calling on Hon. Duncan Marshall, minister of agriculture, with regard to demonstration farms for their district. Mr. Marshall received them and listened to all they had to say, a courtesy which he is according to each delegation that he has received on the same mission.

The minister is not making any promises to anyone about these demonstration farms. His department, he says, has not yet made up its mind where they will be located. And until the weather is such that good locations can be proved, no effort will be made to locate farms.

Will Not Expose England's Hand

London.—An effort was made in the House of Commons to ascertain the views of the Japanese Government on President Taft's suggestion of an American-British general arbitration arrangement, but Sir Edward Grey declined to reveal them. The foreign secretary admitted that the Government at Tokyo has been made aware of the British Government's views on the subject, but he refused to lay Japan's answer on the table of the House, on the ground that to do so would be premature.

ENDORSES ARBITRATION PLAN

A. J. Balfour Seconded Sir Edward Grey's Motion Approving The Scheme

London.—Hon. A. J. Balfour, leader of the opposition, and seconded by Sir Edward Grey's endorsement of President Taft's arbitration suggestion. He saw no difficulties in the way of carrying out such an arrangement between this country and the United States.

"The late government did its best to carry out an arbitration treaty with the United States," said Mr. Balfour. "I hope that there is a general feeling in America that the time has come when these two countries may at last be bound by treaty to refer all questions which could possibly produce anything so horrible as a war between them, to some arbitration tribunal. The secretary for foreign affairs will find no healthier friends of such a policy than those of the Unionist party."

There were no cheers when John Dillon, member for East Mayo, spoke. He described Sir Edward Grey's speech as a "gigantic red herring most successfully drawn across the path of discussion of the naval estimates."

"There was," he said, "nothing different in the Grey proposals than what appeared in the treaty Lord Salisbury tried to negotiate with the United States, except that the importation of the offensive, defensive and co-reve alliance against other powers."

NOT ANXIOUS FOR BAHAMAS

Say It Would Raise the Colored Question at the Very Beginning

Ottawa.—No confirmation has yet reached the government of the report that the legislative assembly of Bahama has voted in favor of union with Canada. It has been known for some time that certain Montreal gentlemen have been actively engaged while wintering at Nassau in inspiring an agitation in favor of union with Canada, but so far overtures have been completely unnoticed.

There is no considerable desire on the part of the government to favor any expansionist policy, especially when it involves the addition of a colored population of over fifty thousand descendants of former slaves, but of course any memorial which may be received from the legislative assembly of the Bahama Islands will be given respectful consideration. Our present trade with the Bahamas is very small, and the proposal is regarded as a sentimental one, rather than as one which will ever amount to anything.

GREAT BRITAIN'S NAVY COST

It is Hoped That Estimates Have Reached Highest Point—Supremacy Must Be Maintained

London.—Hon. Reginald McKenna, first lord of the admiralty, read his annual statement on the navy in the House of Commons recently.

In reply to various Liberal and Labor hecklers, Mr. McKenna said he hoped the estimates had now reached their highest point. He estimated the cost of Germany's fleet at £22,000,000 and Great Britain's at £33,000,000.

The difference, Mr. McKenna said, might seem enormous, but the importance of maintaining the absolute supremacy of the ocean was so great, that Britain could not afford to be in doubt for a fortnight. In reply to various Liberal and Labor hecklers, Mr. McKenna said he hoped the estimates had now reached their highest point. He estimated the cost of Germany's fleet at £22,000,000 and Great Britain's at £33,000,000.

To Regulate Human Growth

London.—Prof. Arthur Keith, lecturer in anatomy at the Royal College of Surgeons, in a lecture recently, intimated that as a consequence of recent discoveries bearing on the relation between the pituitary gland at the base of the skull, and the growth of the body, science might soon be able to regulate human growth.

Not only may more stature be obtained, the expert says, but growth of various parts of the body may be regulated, and the time may come when the doctor will be able, for instance, to cause the nose to grow to any desired shape.

Real Diamonds in British Columbia

Ottawa.—The director of the geological survey announced that diamonds have been discovered by the survey in British Columbia rock, the first recorded discovery of diamonds in Canada. The rock is peridotite, known as danite, consisting of olivine and chromite, and the specimens in which diamonds were found were obtained on Olivine mountain, near Tahquamenon river, by Charles Sasse of the survey. On account of the small size of the diamonds, none being much larger than pin heads, the discovery would seem to be of scientific rather than commercial importance.

False Hair Trade May Spread Plague

Toronto, Ont.—Because the Chinese plague may reach Canada and possibly Toronto, owing to the demand for false hair, the city's medical health officer is having his men make diligent inquiry to determine extent to which the trade in false hair is carried on in Canada, and Toronto in particular, and if possible to find out if any comes from the stricken districts. He admits there is danger of the spread of the plague.

Australia Needs Settlement

Milbourne.—Hon. W. Murray, premier of Victoria, in discussing the report of Rear Admiral Henderson, on the building of the Australian navy, says that it has emphasized once more the Imperial need for the development of the spirit of an Australian immigration policy. With her present population the Commonwealth is unable to fulfill her destiny.

New Director of Experimental Farms

Ottawa.—It is stated that the position of director of experimental farms, to be vacated shortly by Dr. William Saunders of Ottawa, will be offered to C. C. James, of Toronto, deputy minister of agriculture for Ontario. Mr. James is a thorough expert in agricultural matters and has been a good worker for the Ontario government.

CONTROL OF RAILWAYS

MINISTER OF RAILWAYS EXPRESSES HIS OPINION

He Advises Commons Not to Injure Canada's Credit, and to Shake the Confidence of the People Who Held the Purse Strings of the World—Question of Cheaper Rates Will Have Consideration of Government.

Ottawa.—Hon. Geo. Graham, replying to W. F. Maclean's resolution to place the control of railway capitalization in the hands of a commission, said that he was of the opinion that the farmers of the west had a cheaper rate to the Great Lakes than the Americans had to Duluth. The rate on coal from Fort William to Winnipeg was lower than the rate from Duluth to Winnipeg.

Referring more particularly to capitalization, Mr. Graham said that conditions differed in Canada from those in New York State. There railway charters were granted by letters patent, whereas in Canada parliament retained control of charters and capitalization. He reminded Mr. Maclean that the men who originally put their money into the C. P. R. took big chances and that they were entitled to a fair profit. At the present time the chief profits of the company were due to the remarkable increase in the value of the land held rather than to earnings.

Mr. Graham next pointed out that while the C. P. R. occupied an enviable position, new companies which have to finance railways should be remembered. It was desirable that nothing should be done to shake the confidence of the people who held the purse strings of the world. In conclusion he said that Mr. Maclean's proposal merited consideration. He was at liberty to say that he had discussed the matter with the chairman of the railway board and with railway men, but had not been able to arrive at the conclusion that the time had come in Canada when it would be desirable to make a change. He assured the house that the question of cheaper rates was now and would continue to occupy the attention of the government.

ROADS FOR PEACE DISTRICT

Surveyors to Locate Road Around the South Shore of Lesser Slave Lake

Edmonton.—To locate a road around the south shore of Lesser Slave lake, A. P. C. Belyea, D. L. S., of the provincial department of public works, left recently with a survey party for the north. Hitherto there has been some travelling south of the lake on the shore, which has proved an uncertain and dangerously difficult route. The party under Mr. Belyea will locate an inland trail, striking off from Sawridge at the east end of Lesser Slave Lake and leading to Grouard at the western extremity. Settlers of the Swan Hills district, south of Lesser Slave lake, will be given direct access to the east by the new road. Up to the present, the route of travel from the Swan hills has been by way of Grouard and the north shore of the lake. Few travellers have attempted the trip by the south shore.

Before returning to Edmonton next winter, Mr. Belyea will have made a circuit of over a thousand miles.

Park for Calgary

Calgary.—Mayor J. W. Mitchell is writing immediately to the government to press the opening of negotiations with the Indians for the 1,100 acres that constitute the northeast corner of the Sarcee reserve for a natural park for Calgary.

He is enthusiastic over the idea, which was sprung first by his predecessor in office last year.

The government seems disposed to assist the city in inducing the Sarcee Indians to treat for the property, judging from the correspondence that passed between ex-Mayor Jamieson and the department of the interior last year.

Mr. Jamieson wrote asking them to open negotiations with the Indians, and the Indians, and the department replied, asking what the city would offer before the Indians were approached. There the thing languished.

The city should procure it by all means," was the unanimous verdict expressed by mayor, commissioners and aldermen, and it is a safe thing to assert that if the matter comes to the attention of the council it will be favorably received.

Sask. Demands Control of Resources

Regina, Sask.—The big debate in the legislature ended with the unanimous passage of the government's amendment to Haultain's public resources resolution. The amendment to the amendment was defeated on a straight party vote. The amendment, which passed, urged the Saskatchewan government to proceed with negotiations with the federal authorities for the purpose of having transferred to the province that part of the natural resources of Saskatchewan together with all the natural resources of purely local concern, not reserved for immigration or colonial purposes. This resolution also enforces the principle that vacant agricultural lands in western Canada should remain under the control of the federal authorities for settlement and colonization purposes.

On Verge of Becoming a Missionary

London.—The Bishop of London, speaking at Crickeford, said that during the autumn of 1910, after his return from Halifax, he had almost decided to offer himself as a missionary for service in Canada as an example to the church of the principle in which he believed. After praying over the matter for three months he had decided to stay in London.

Women's Opportunities in Canada

London.—Mrs. Norman Grosvenor will sail for Canada in April to establish agencies for the Intelligence League for educated women emigrants.

CHINESE IMMIGRATION

The Government Will Not Admit the Wives of Chinamen to Canada Free

Ottawa.—In the senate, Senator Domville drew attention to a report that the British government was about to popularize consuls by issuing bearer bonds from five to ten pounds, which could be purchased at post offices. He said that the Canadian government should do something of this kind. There were at least a thousand million dollars worth of savings placed on deposit with Canadian banks and the government, and this showed the need for some additional way in which people of moderate means and small experience in business could invest safely.

Sir Richard Cartwright said that the proposal made by Senator Domville touched a question of great interest. There was no doubt it would place secure investments within the power of small investors. He would call the attention of the minister of finance to the suggestion.

The bill amending the Chinese immigration act was given its third reading. Sir Richard Cartwright said that he had called attention to the government to the proposal that the wives of Chinese should be admitted to Canada free. They had decided that it would be inadvisable to extend the free list of Chinese admission at the present time.

PHILLIPS IS FREE AGAIN

Was Sentenced to Four Years and Got Nine Months Off For Good Conduct

Kingston, Ont.—After serving three years and three months on a four year term, the difference being due to the time allowed off for good behavior, Joseph Phillips, of the York County Loan and Savings association was released recently from the penitentiary. It is understood he has gone to Toronto. Phillips is looking fine, much better than when he entered. Phillips was the founder of the York County Loan and Savings company, which due to its real estate speculation in Parkdale and the foundation of collection from depositors and others in which it was built, went to smash. It had thousands of victims, mostly persons in only moderate or poor circumstances.

C. N. R. Construction Programme

Toronto.—Sir William MacKenzie, president of the Canadian Northern railway has outlined the company's construction programme for this year. The branch line from Prince Albert to Battleford will be completed and work done on the section from Battleford to Jackfish lake.

South-west from Saskatoon progress will be made on the line from Delisle. Eventually this road will run through to Swift Current, thence to join the line between Mayfield and Lethbridge. In Alberta two lines will be completed into Calgary, one from Saskatoon and the other from Vegreville.

A large force of men is to be employed west of Edmonton on the road to Vancouver.

Can't Extradite These Canadians

Chicago, Ill.—Counsel for the men indicted in the Alton race riot, land, declares the Canadians are under British protection and cannot be brought to this country for trial. He said the treaties between United States and England do not make conspiracy against the government an extraditable offence. Furthermore, he asserts his clients could not have any papers to file against the men. He declares the fact they were not in Chicago on April 1, 1908, when it is said to have begun. Government attorneys contend the alleged fraud had its inception in Chicago and that the accused can be extradited. They say all had knowledge of the conspiracy and that no matter where the offences were committed, the trial court is here.

Great Demand for Homesteads

Winnipeg.—During the last week of March and the first of April, the G. T. P. has several large organized parties moving to points on its line east and west of Edmonton. According to the information received April will be an exceptionally heavy month.

The new homesteads that have been thrown open by the government in the Grande Prairie district and Peace River country claiming unusual attention and a large number of travellers are going into the new country via Edson and the wagon road which is being constructed by the government.

Imperial Council Scheme Unnecessary

London.—Joseph Martin, writing to the Times, says that the proposed Imperial Council scheme is unnecessary, because the present relations between the self-governing colonies and the mother country are ideal and cannot be improved upon. The principles, laid down by Lord Durham in his famous report on the Canadian question, remains as sound to day as when published and any scheme of imperial federation must necessarily be in conflict with those principles.

200 New Towns

Winnipeg.—That the present year will show a remarkable railway development in Western Canada is established by a number of important announcements by the various transportation companies during the past fortnight. These are supplemented by the statement that the G. T. P. will build 140 new stations on its lines this summer and that the C. P. R. will open fifty new towns on its new lines.

To Build from Burmis to South Fork

Burmis, Alta.—That the Canadian Pacific Railway will build one and possibly two lines from here to a point or to points on the South Fork of the Old Man river, where the company owns rich coal lands, is assumed from the fact that surveyors are now engaged mapping out routes.

MISSION OF CANADA

TO BE A LINK BETWEEN EMPIRE AND UNITED STATES

British Paper Expresses View That Canada in Developing a National Identity Under the British Flag Will be a Factor in Establishing Permanent Peace Between the English-Speaking Nations.

London.—The London Observer says that Canada as a whole, while desiring above all things to develop its national identity under the British flag, is determined to be a link between the empire and the United States and not cause strife between them. This is one of the fundamental facts of imperial politics and if Britain is wise it will mean permanent peace in the English speaking world without secession, whether gradual or violent, of Canada from the empire.

The Canadian reciprocity question for Canada alone, if it is connected with arbitration at all is the logical sequence. Either a treaty of peace should precede the commercial compact or both should be enacted together. Otherwise Canada will put prematurely, an inducement which might have had considerable influence with the American senate. Arbitration between two English speaking powers cannot under present conditions mean an alliance and to dwell on such a probability as the latter would be the most certain means of defeating the former.

Lloyd's News says that between America and England there is only one form of rivalry and that is purely commercial and states that it dares to add that if the reciprocity agreement is finally endorsed by Canada and America it would be impossible to imagine any difference likely to arise between Britain and America that could not be amicably and honourably adjusted by such a tribunal as Taft proposes.

C.N.R. From Ocean to Ocean by 1914

Montreal, Que.—The official announcement was made for the first time here recently as to the probable date of the opening of the Canadian Northern railway from ocean to ocean. D. B. Hanna, en route for Quebec, stated that the several links would be hitched up by the fall of 1914, and the third vice-president also confirmed the statement to the effect that the five hundred mile stretch from Sudbury to Port Arthur will be built in two years' time. Mr. Hanna likewise expects that there will be no less than six trains running daily from Montreal and Toronto to the Pacific coast, two to be operated by the C.P.R., two by the Grand Trunk Pacific and also two by the Canadian Northern. Mr. Hanna said he could foretell the time when a daily boat will travel from Great Britain to Canadian Ports.

Calgary College Senate

Calgary, Alta.—The result of the election of the senate for Calgary College is announced. The ballots were counted by the acting registrar, Harold Riley, and the senate chosen was: A. M. Scott, B.A., Ph.D., Calgary; Rev. J. A. Clark, B.A., Calgary; Rev. C. H. Huestis, Red Deer; Rev. E. C. Haget, M.A., D.D., Calgary; D. Stanley, M.D., High River; W. M. Davidson, B.A., Calgary; Hon. J. C. Nor, B.A., L.L.B., Edmonton; P. B. Reilly, L.L.B., G. A. Anderson, M.D., Calgary; Right Rev. Bishop Pinkham, Calgary.

One Million Dollars for Mill and Pine

Nelson, B.C.—For the consideration of \$1,000,000 the Pacific Lumber company recently conveyed to the British Canadian Lumber corporation, with headquarters at Montreal, its mill at Crescent Valley and its 9,000 acre tract of white pine, spruce and cedar timber on the east and west branches of the Little Shocun river. The saw mill's capacity on an ordinary run is 30,000,000 feet per year and the plant is claimed to have no superior in the interior.

Surprise at St. Petersburg

London.—The Telegraph's St. Petersburg correspondent cables "Sir Edward Grey's promise to inquire how far the interests of Canadian fishermen will be impaired by Russia extending the territorial waters to the twelve-mile limit, arouses mild surprise here. The passage of the bill is a forgone conclusion which will be neither counteracted or delayed by diplomatic lamentation."

Many Homesteads Opened Up

Toronto.—Pronounced proof of the opening up of the northwest provinces by the construction programme of the transcontinental railways is shown in the announcement that this year the C.N.R. has opened up for 25,000 homesteads. Of these 6,000 will be in the Jack Fish Lake district, 9,000 in Athabasca, 5,000 between Saskatoon and Calgary, 3,000 in the Carrot River district and the remainder in the Shellbrook district.

Unclaimed Express Money

Ottawa.—The railway committee of the commons recently reported Major Sam Sharpe's bill, dealing with express companies, in amended form. The bill provides that express companies must make annual returns of all unclaimed money orders, and currency, etc., held for three years, and that within six years they must be turned over to the receiver-general.

Imperial Conference

London.—Rt. Hon. Lewis Harcourt, secretary of state for the colonies, has announced that an additional subject for consideration of the Imperial conference will be the enforcement in one part of the empire of the commercial awards given in another part and the extension of the Imperial postal order.

China Acquiesces

Pekin.—The Chinese government declares its intention of agreeing to an announced that an additional subject for consideration of the Imperial conference will be the enforcement in one part of the empire of the commercial awards given in another part and the extension of the Imperial postal order.

WANTS TO RETURN TO DIE

Gainesville Authorities Anxious to be Rid of the Old Train Robber

Vancouver.—Old "Bill" Miner is coming back to New Westminster penitentiary to die, according to a special despatch from Gainesville, Georgia. He is in failing health and being in his seventieth year is not expected to live long, and has expressed the wish that he would like to be back here with his pals, who assisted him in holding up the C. P. R. train in 1906. He says he will die game.

The authorities in Gainesville are said to be anxious to have Miner serve out his life sentence here. Under the circumstances it is necessary to keep a constant watch on him, and Pinkertons have said that old Bill can never be kept in a country jail.

Reorganization Must be Done Slowly

Glasgow.—The Herald says that Great Britain and her four daughter nations would find it difficult to work out a federal constitution roughly parallel to that of Canada or Australia or United South Africa if they had no common fiscal system, which is an indispensable basis in all closely knit federations.

"It is clear," the Herald adds, "that the task of re-organizing the empire would be approached in a cautious and tentative fashion. Grandiose schemes will not stand a chance of serious treatment. There must be no attempt at forcing the pace."

Telegraph Rates to Be Reviewed

Ottawa.—The department of justice has appointed W. S. Buell, of Brockville, and Isaac Pitblado, of Winnipeg, to represent the people of Canada in the general inquiry into the matter of telegraph rates and telegraph forms.

The inquiry has arisen as the result of a complaint laid by the Winnipeg board of trade against the telegraph companies, but as the issue was one of national interest, it was taken up by the government.

At the railway commission office it was announced that an inquiry would be commenced by the commission in Toronto, Monday, April 24.

Object to Grain Act

Fort William, Ont.—The council of the board of trade in session recently, appointed a committee of five representative men to proceed to Ottawa to protest against several clauses of the grain act now before the senate. A committee from the Port Arthur board, in attendance, announced that they would call a special meeting of their council and urge that a similar delegation accompany that from Fort William.

The clause especially objectionable is one debarring grain men from holding an interest in elevators.

88,498 Deaths From Plague

London.—During the month of February the deaths from plague in India reached the enormous total of 88,498. The disease has become such a fixture in the country that its ravages are little heard of except through an occasional official statistic. A British official in India reports the epidemic particularly prevalent this year and adds that most persistent efforts to stamp it out have failed to effect a permanent improvement in the situation.

Bowers as Commissioner

Calgary, Alta.—Alberta farmers are pressing the claims of W. J. Bowers as one of the elevator commissioners to be appointed by the Dominion government in connection with terminal elevators inspection, a bill for which is now before the Dominion senate. Mr. Bowers is a farmer of Red Deer, president of the Alberta Farmers' Union, and president of the Farmers' Council of the Dominion western provinces.

Find Land in Fine Shape

Calgary.—Farmers of southern Alberta have been busy upon land for the past week and are getting it into shape now. It is one of the earliest springs in the record of the province and prospects are better than at any previous spring. There has been more than the ordinary amount of moisture and farmers are busy preparing it.

Denmark is Favorable

Copenhagen.—The Danish foreign office sent a letter to the peace bureau at Berne, Switzerland, saying that Denmark will accept the Russian government's invitation to appoint a commission on the lines authorized by congress to promote arbitration among nations, and for the limitation of armaments.

Secures Government Post

Calgary, Alta.—The provincial government has offered the position of medical superintendent of the provincial asylum to Dr. Dawson, medical health officer for Calgary. Dr. Dawson has been in Calgary for about a year, coming here from Birmingham, where he was in a somewhat similar position.

China Concedes a Few Things

London.—The Pekin correspondent of The Times says that China has agreed to reply to Russia in connection with the controversy arising out of the treaty of 1881. China, the correspondent says, concedes free trade in Mongolia and the appointment of a consulate in Kilden.

Wants Free Wheat

Chicago.—James A. Patten has declared himself to be in favor of the free admission to the United States of Canadian wheat.

No Surprise to Her

The young man met the little ten-year-old sister of the house and said: "Now, Jennie, I want to tell you something that I hope you will like. Do you know that at the party last evening your sister promised to marry me? Now I hope you will not think hard of me?"

"Hard of me?" echoed the truthful little Jennie. "Why should I? That's what Mamma gave the party for."

THE SUNDAY SCHOOL

LESSON XIII.—FIRST QUARTER, FOR MARCH 26, 1911.

Text of the Lesson, a Comprehensive Quarterly Review—Golden Text, Ps. cxlvii, 15.—Commentary Prepared by Rev. D. M. Stearns.

Lesson I.—The kingdom divided, I Kings xii, 6-16. Golden Text, Prov. xii, 20. "He that walketh with wise men shall be wise, but a companion of fools shall be destroyed." The kingdom was divided because of Solomon's sins (chapter xi, 11), but shall in due time be reunited as the Lord has purposed (Ezek. xxxvii, 21, 22). Back of and through and controlling and overruling all the actions of all men, good and bad, we must always see God.

Lesson II.—Jeroboam makes idols for Israel to worship, I Kings xii, 25-33. Golden Text, Ex. xx, 4. "Thou shalt not make unto thee any graven image." Although Jeroboam was well aware that the Lord had given him these ten tribes and would on condition of obedience establish his kingdom (xi, 31-38), he could not trust God, who had been so kind to him, but deliberately listened to and acted upon the advice of the devil and worshipped him.

Lesson III.—Asa's good reign in Judah, II Chron. xv, 7. "Be ye strong therefore and let not your hands be weak, for your work shall be rewarded." How refreshing to find a man on whose behalf the Lord can show Himself strong (xvi, 9). He is still looking for such. The words that help me most in this lesson are xiv, 11, with the verse just quoted and xv, 15, seeing and resting in the Lord alone.

Lesson IV.—Omri and Ahab lead Israel into greater sin, I Kings xvi, 23-33. Golden Text, Prov. xiv, 34. "Righteousness exalteth a nation, but sin is a reproach to any people." The statements concerning these two are that they did worse in the eyes of the Lord than any that were before them (verses 25, 33). It would be difficult to find two men more given over to the

A LITTLE STORY OF IRRIGATION

There were two men who had two adjoining quarter sections in the Canadian Pacific Railroad's Irrigation Block in Southern Alberta; one was a farmer, the other thought he was. They both got up early in the morning, cultivated their ground and planted their crops. The farmer employed irrigation intelligently; the other man trusted to the Lord to send the water along at the right time.

When the harvest came, the farmer took off 40 1-2 bushels of winter wheat to the acre; the other man took his note to the bank to have it renewed. The farmer made enough off his crop to:

1. Pay for the acre and for 25¢ an acre
2. Reimburse himself for the expenditure in connection with cultivation of his land.
3. And to pay for the fences and other improvements on the land.

Irrigation farming is successful farming because it is business farming. You don't have to worry about weather conditions. Your crop is INSURED and your future and independence ASSURED.

New Spring Goods

DRY GOODS, MEN'S CLOTHING and
FURNISHING, BOOTS and SHOES

We are showing a large
Assortment of Clothing for
1914 season

Gipsy and thrown are
the dominant shades for
Spring suits.

Large display of Men's
Hats. American and English
styles, black, grey,
brown and fawn. All
the newest shades for
this season.

Requisites for the Woman planning
her SPRING WARDROBE including
General Style Tendencies for the Spring and Early Summer
season—

Handsome Suitings for early Spring and
Summer wear
Fancy Silencing silks for waists and
dresses

Lovely embroideries for trimming summer
gown and fine white linen, also correct
color schemes

PROVINCIAL NEWS

The commission appointed by the Dominion Government to inquire into conditions affecting the wool and mutton industry of Canada will sit in the Knight of Pythias Hall in Lethbridge on March 25th, 26th and 28th; the office of the Alberta Live Stock Association, Calgary on the 29th and 30th, and in the city council chamber, Edmonton on March 31st and April 1st. Let the Alberta wool and mutton growers show their interest in this matter by appearing before one of these places and informing that they of the difficulties in the way of wool and mutton production in Alberta, and suggesting such remedies as they think are necessary under the circumstances. W. F. Stevens, live stock commissioner.

100,000 Settlers for Alberta

J. Bruce Walker, commissioner of immigration, predicts 100,000 immigrants for Canada this year, of whom 250,000 will come west, and at least 100,000 will settle in Alberta. Estimating that each of these settlers will have at least \$1000 capital, means enriching the province monthly alone to the extent of approximately 100,000,000.

These hundred settlers are coming direct to Alberta from Montreal by special excursions within the next two or three months. They have been gathered together by the provincial government and the United States. The first of the Canadian Pacific Railway "hulabucks" excursions reached Calgary last week, and comprised forty farmers from Kansas, Iowa, Illinois and Ohio. This is the earliest excursion train that has yet left the United States for Western Canada, and it is significant that every number of this train is here to settle down and farm, and not to speculate. These men will settle on Canadian lands, some in central Alberta, and some on irrigated farms in Bow Valley. One man back a section near Gleichen, and three of his friends took half sections near him.

Double Track Through Gleichen

With the ultimate object of double tracking the main line between Calgary and Medicine Hat, the Canadian Pacific Railway has had a party of surveyors at work since last December. They will be away for another two months yet. It is the intention of the company to construct a double track on the present right-of-way, and to straighten out a number of curves in the line between Calgary and Medicine Hat. The company thinks, by the time the work is finished, the traffic will be increased sufficiently to warrant double tracking operations.

Ready-Makers Welcomed

The Board of Trade and the Council of the town of Selkirk have united to extend a formal welcome to the "ready-made" farmers from Great Britain, who arrived in Alberta on Tuesday. This is one of the sanest moves towards the conservation of citizenship that has been made in the history of immigration. The "ready-made" farm is in itself a departure in colonization methods which has proved the most successful means of bringing the best class of British settlers to this country, and the co-operation of the citizens, and the boards of trade in giving these settlers an enthusiastic welcome, will go far towards making them the best of the new settlers. This party of settlers number about 160.

Peter Gunn, M. L. A., who has just returned from a trip west to the mountains, says that the seven past years in the fur trade are over, and the seven years of plenty will follow this winter. "I have seen plenty of fur, and it is a sign that has never failed as long as it has been in the country. Fur has been very scarce the last few years. Now fur is not so scarce. There will be plenty of it."

In the endeavor to make a city beautiful, the Calgary council has passed a by-law authorizing the expenditure \$500,000 this year, on seven parks, this money will be spent in seeding, sodding, leveling, grading, and otherwise making the parks attractive.

Mr. W. H. Miller, of St. Paul, Minnesota, from St. Paul, and of Fair-Haven Farm, near Strathmore writes from St. Paul, "I am sure you would be pleased to be interested to know how many down here are interested in the Irrigation Block,

and the Strathmore district. I was astonished to find on my visit to Strathmore last summer, the wonderful development that had taken place in less than a year's time, and no doubt the coming season will witness far greater results. Your Farmers' Association, Seed Fair, Demonstrations, etc., etc., are bringing the results, for they represent the true spirit of well directed co-operation for the district."

Gleichen U.F.A. Meeting

The weekly meeting of the Gleichen local U.F.A., P.C.A., No. 98, was held in the committee rooms of the Palace Hotel on Saturday, March 14th. There were a large number present. Mr. Emil Griesbach, of the chair.

The minutes of the previous meeting were read and approved. The following new members were reported by Neil McMillan and accepted as members: Chas. Flynn, A. W. Demarest, Louis Butler, and Cyril L. Ingham.

The copy of telegram which was addressed to the Hon. W. S. Fielding urging the passage of the reciprocity agreement, which was signed by the president and secretary, was read and approved.

The letter from Chief Inspector of Woods, C. E. Lewis, pointing the appointment of Henry W. Lee as local wood warden, was read. Mr. Eugene Sny, secretary of the Strathmore union, on the irrigation subject, and the Gleichen secretary's reply, were read and discussed fully, and the action of the local secretary was heartily approved by the union.

An official circular, No. 3, 1914, from Edward J. Fram was read and discussed.

The local organization of a local improvement district was discussed, and the secretary in attendance during remainder of Session, and further information as to the effect of the late C.P.R. decision.

The matter of the extermination of the golden plover was then taken up and fully discussed, and the action of the President Griesbach to turn over the F. A. Bond about joint action and meeting for mixing same to the union, the offer was unanimously accepted.

President (Griesbach) was appointed to attend to mixing and delivering the poison, the fact of the regular price, as established by the Bulletin Co., for the sale of the poison.

It was also decided to furnish poisoned grain to the other local unions near us if sufficient poison can be secured for preparing same.

The meeting then adjourned to meet again Saturday, March 22nd, at 1 p.m.

Grasping at the Shadow

Many a man has frequently been persuaded or tempted to withdraw from a savings bank the hard earned savings which he has, perhaps, for years been laying aside to keep him in his old age, sometimes by a friend who applies to him for a temporary loan—just for a few weeks. The subsequent to part with his money by the offer of a loan—some loans have more frequently been the victim of a silver-tongued argument of some get-rich-quick scheme. Experience teaches us, however, that too often does the borrower fall into greedy get-rich intentions, and the borrower loses his money, and as the interest which his money would have earned had he left it in the savings bank, and in the nine times out of a hundred loses the get-rich-quick scheme fall to materialize, grasping at the shadow we have lost the substance. The Canadian Government, in its efforts to protect a man against improvident acts and injudicious investments, safe guards him against himself. Money paid into the Government cannot be used for any other purpose, but must remain intact for the object of which it was loaned. It would never be made, otherwise the man and aimed at would never, as has been illustrated above, be attained, and old age would undertake an unprofitable for its own sake and to the detriment of the nation.

Further information on the subject may be obtained by applying to the Postmaster General or Superintendent of Annuities, Ottawa, to whom all letters known as "Canada Bonds" should be sent.

"You have such a model husband," said the lady who was congratulating the bride. The next day the bride thought her to look up the word "model" in the dictionary, and this is what she found: Model—a small imitation of the real thing.—jealousy elicits is never marveled.

Mark Train had this to say about

production.

"I am a friend of temperance,

and want it to succeed," said Mark

Train, "but I don't think prohibi-

tion is practical. The Gleaner,

you see, prevent it. Look at them,

I am sorry to learn that they have

been invested a method of making

ready out of our soil. Now all that

temperance will produce here when

a man can take a nip now and

again and get drunk with a few

more? What is the good of prohibi-

tion if the man is able to make

himself smaller out of whingles on

and on if the man gets delirious

because he is getting the top of the

TOWN AND DISTRICT

The Ca's fifth birthday today.

A happy new year to all The Call

Discing may now be said to be

fairly general with our farmers.

When in Gleichen eat at The

Diamond Cafe. All white help

employed.

Jim Dillon refused to manufacture

even one good poem on St.

Patrick's day. Jim, my boy, we

fear you forget you are Irish.

The Gleichen ladies are fanned

for their cooking and fancy work,

and those who attend the W.A.

male tongue may prove this.

One of our best men, who held a stick

of dynamite close to his breast,

and lit it, a fuse. The last seen

of him he was going off with the

dynomite.

Don't grumble if your paper is not

up to the high standard of your

editor. Charitably remember that no

editor is capable of getting up

quite as good a paper as you can

yourself.

Bert Allen was taken to the H. D.

Cross hospital, at Calgary, Sunday,

and is the first to occupy the

Gleichen ward. Bert has been

quite ill for some time; but is now

improving.

Geo. W. Hunter with his wife

and boy left yesterday on a couple

of weeks holiday to their former

home in Idaho. George's hearty

rule will be missed, but he deserves

the holiday.

The Women's Auxiliary will

have a sale of home-made cooking

and fancy work in St. Andrew's

rectory tomorrow afternoon—Friday

—March 24th. All are cordially

invited to attend.

The tenders for the new C.P.R.

station at Gleichen close this week.

It is No. 10 station, and will be

a good improvement on the present

one, but many will wish soon

prove too small for this growing

town.

The farmers are now very busy

hulling in grain to the elevator

and have been receiving prices sat-

isfactory to them. In fact they have

shown more activity in this direc-

tion the past week than at any

time since the last harvest.

When in Gleichen eat at The

Diamond Cafe. All white help

employed.

By public subscription \$180 has

been raised by Mr. Biederick to

run a "Gleichen Ward" in the

High Cross hospital at Calgary.

Among the many advantages is,

no matter who may occupy the

room, how full the hospital is, the ward

will be always open to Gleichen

patients.

A. Danest, who has been visiting

the Moors, Arle's for the past

three weeks, left Sunday for his

home in Winnipeg, where he is

employed in the public works de-

partment of that city. He was

well pleased with his visit to

Gleichen and said he would not

forget to tell of our climate.

There should be a large gathering

of parents and those interested

in the last week movement at the

public inauguration to be held on

Friday afternoon, March 21st, at

4 p.m., in the school grounds.

These interesting speeches will be

given on the subject, and a dis-

play by the boys.

W. M. Ruttle, of Duhamil, has

purchased from John Clark the

splendid Chelveston station "Royal

Hawthorn (1000) (1819) from

Martin (16017). See Hawthorn

(1800) from Martin (1800) by

Royal Alexander (2007). By the

purchase of this fine animal Mr.

Ruttle is laying the foundation for

an excellent class of Cycles.

With this issue The Call enters

on its fifth year of publication, be-

lieving it will prove the best year of

all, and also for The Call but for

the readers and patrons. From the

time of the Call's inception it has

been more or less of a struggle to

keep afloat, but your improve-

ments have been in the papers

appearance, starting with a four-

page supplement edition. It has

increased to an eight-page seven-

column, but we are undoubtedly im-

proving yet, and will not so long as

the district see continue to

fill in with such an excellent class

of settlers as have and are coming

here. Starting this year we

will make no pretence, but hope

to go on to produce a few sur-

Remember the date of S. L.

Taylor's visit to Gleichen and you

have any "eye trouble" don't fail

to consult him at A. R. Yates, Drug

Store, Thursday, March 25th.

The average man is more pleased

to be able to have his name in the

newspaper than on a cheque.

Horse talk is now all the rage.

Spring is surely at hand.

On Saturday night next in Gries-

holl will an interesting exhibition

of moving pictures will be given.

It is said that there will be extra

good films and worth seeing.

Your home paper comes to you

as an old friend and neighbor. I

hope you all the home news will

the large city daily enters your

house as a stranger. A local news-

paper is absolutely necessary for

local news.

Last fall it was stated that many

of the farmers of this district were

crops, and it is now interesting to

hear some of them stating they have

2000 and 3000 bushels in their

granaries, which they are anxious

to have hauled into town for ship-

ment.

We heard a man the other day

talking for a chance to work.

That man was a false alarm. No man

who wants work these days need

be still at home for long hours.

There is all kinds of work in this

district, and good wages can be

secured by one man.

"Cudd" Arle's station that on

March 14th—when he was quite ill

—his boys brought a real live gos-

topper for him to rear. He now

wants to know where this climate

can be best. "Winnipeg" buyers

have been seen not to turn the past

week, but the Arle's boys are ahead

of all reports to reach this office.

T. McKie arrived Saturday from

Ontario, and spent a couple of days

with his family here. That man

was a false alarm. No man

who wants work these days need

be still at home for long hours.

There is all kinds of work in this

district, and good wages can be

secured by one man.

An experimental farm with

10,000 acres will be established in a

short time at Stuffed. W. J. Mur-

ray, manager of the Brandon ex-

perimental farm, will take charge,

having resigned from his Brandon

position. J. D. McTavish, man-

ager of the South Alberta Land

Company, is the proprietor. Mr.

McTavish left London, England,

Monday and is coming here via

New York and St. Louis, where he

will purchase and have sent over

loads of material and 10 steam plows.

T. McKie is generally preach-

ing wouldn't like to be as good

himself as he says every one else

ought to be.

By public subscription \$180 has

been raised by Mr. Biederick to

run a "Gleichen Ward" in the

High Cross hospital at Calgary.

Among the many advantages is,

no matter who may occupy the

room, how full the hospital is, the ward

will be always open to Gleichen

patients.

A. Danest, who has been visiting

the Moors, Arle's for the past

three weeks, left Sunday for his

home in Winnipeg, where he is

employed in the public works de-

partment of that city. He was

well pleased with his visit to

Gleichen and said he would not

forget to tell of our climate.

There should be a large gathering

of parents and those interested
